

# Meet the Doctors and Health Care Providers at Concord Health Center

## Open House, November 15

A health system that truly cares does more than treat illnesses and injuries – it helps prevent them. Join us at the Concord Health Center Open House Nov. 15 from 10 a.m. to 2 p.m. We'll be offering free lectures and screenings throughout the day, so it's your chance to see the center, learn how to prevent health issues, discover if any are developing and get to know us a little better in the process.
